Responsible Event Performance

This event is self-assessed across 30 ESG factors as within the fourth quartile (75th - 100th percentile) of all events reported via event:decision's Impact: Responsible Event Review tool. Factors can be input as Positive (event is actioning this factor), as Neutral (event is not actioning this factor) or as Not Applicable to this format of event.

Social Value Yield (SaVY[©])

10% – 30% of budget Social Value Yield boundary

The Social Value Yield of this event can be expressed as **[20%]** of stated budget.

Social Value Yield (SaVY) represents the percentage of project budget that may generate social value if the project performed perfectly on all indicated social factors, weighted for event-type, sector and Social actions marked as Positive within the associated Impact Review. View [Methodology](#).

Certificate Date

8th Feb 2026
